Challenges and Solutions

CHALLENGES AND SOLUTIONS

The California Air Resources Board (ARB) and the California Air Pollution Control Officers Association (CAPCOA) are sponsoring the second annual statewide air quality leadership conference. This is the forum to expand the role of local officials in the state's air quality improvement efforts, to exchange information and perspectives on common issues, and to strengthen the state and local partnership needed to achieve clean air for all Californians.

Who should participate?

- Local air district board members
- City council members, county supervisors, mayors, and their representatives
- Air district executives

What will participants gain?

- A greater understanding of current “hot” air quality issues
- An insight to future technology
- An awareness of funds available for addressing air quality issues locally
- An opportunity to network with other elected officials and air district executives and form new partnerships
